Invitation for setting up of new Scientific facilities in AMTZ campus on PPP mode

As part of the constant efforts to make the AMTZ campus an holistic ecosystem for addressing issues of healthcare and manufacture of medical devices, the Company proposes to float Request for Proposals (RFP), inviting proposals from interested service providers for setting up of the following scientific facilities in the Zone:

1. Plasma fractionation facility for Plasma derived medicines in the country
2. Animal testing facility for clinical evaluation of medical devices
3. Laser testing facility for medical devices used in Laser medicine and surgery
4. Electrospinning facility for production of medical fibres

Detailed RFP document inviting proposals for all these facilities shall be available on this website from January 10, 2019 onwards.
